Man Basket

info@wcs-grp.com | www.wcs-grp.com

Overview

The WCS Access Cage are used to transport personnel around site, often used to reach confined spaces or to provide access to tunnels and shafts.

Manufactured to the highest standards, as relevant

Key Benefits

- Wide range of sizes, from 1 person capacity to 12 person.
- Suitable for different applications, from personnel movement to access for working in a confined space.
- Internal harness attachment points.
- Self-locking door to prevent being opened inadvertently.
- Door opens inwards to avoid falls.
- Safety handrail to provide a comfortable and safety working area.

WCS Man Baskets

WCS-MB-120-01

- 1 Person
- Working load limit: 120Kg
- 2300x700x700 mm

WCS-MB-240-02

- 2 Person
- Working load limit: 240Kg
- 2300x1200x1450 mm

WCS-MB-480-04

- 4 Person
- Working load limit: 480Kg
- 2300x1450x1500 mm

WCS-MB-720-06

- 6 Person
- Working load limit: 720Kg
- 2300x1400x2000 mm

WCS-MC-1440-12

- 12 Person
- Working load limit: 1440Kg
- 2300x2000x2700 mm

Disclaimer

Warranty

The products supplied by WCS FZE are all guaranteed by a 12 month warranty.

Apart from where exceptions apply, WCS FZE promises to repair or replace any fault which the Company considers to be due to defective material or workmanship within 12 months of the date of sale, at no additional cost.

Exceptions including but not limited to:

- Faults arising from unauthorised alterations (see modifications section below for full details).
- Damage caused by abuse, neglect, misuse or falling.
- Damage caused because of failure to follow transportation, storage, loading, cleaning or operating instructions.
- Replacement or repair of components due to fair wear and tear.
- Any consequential damage or wear arising from the use or fitting of additional or nonstandard parts.

Modifications

If any third-party modifications or alterations, involving drilling, welding, cutting or distortion of materials in any form, are to be carried out on the product, WCS FZE must provide full written approval prior to the work being carried out.

Alterations, modifications, additions or repairs must be carried out by WCS FZE's recognised distributors, if they are not carrying out the work themselves.

WCS FZE operate a continuous improvement policy and therefore reserve the right to alter technical specifications and user guide details at any point without notice.

WCS FZE will not cover or reimburse any transportation and/or shipment costs to and from their premises or their recognised agents, or any material and/or labour costs for repair, replacement or assessment against a warranty claim.

WCS FZE will not be held liable for consequential damages, losses or expenses relating to the inability to use the product correctly for its purpose.

EC Declaration of Conformity

In accordance with EN ISO 17050-1:2004

Declaration: As defined by the Machinery Directive 2006/42/EC and subsequent amendments.

We, WCS FZE, herewith declare that the following indicated equipment meets the fundamental health and safety requirements concerning the EU guide line(s), due to their design and manufacture.

This declaration will be rendered null and void if the machine is changed without our approval.
